

AMERICAN FOUNDATION
for CHILDREN with AIDS

American Foundation for Children with AIDS (AFCA) is a nonprofit organization with 501(c)(3) status. They improve the lives of children and youth struggling with HIV/AIDS in Sub-Saharan Africa by providing shipping and delivering life-saving medication, food and medical supplies to children aged 19 and under, to ensure that they live a full and healthy life. Currently, AIDS has had the most devastating effect on children in Africa, and if we do not step in to halt the progress of HIV, millions of children will needlessly continue to die. Without the medication AFCA provides, half of the children affected by AIDS will die before their second birthday.

AFCA is hosting *Climb Up the World*, a climb-a-thon to raise both awareness and funds needed to continue serving the children.

I am joining AFCA in the fight against pediatric AIDS and will be participating in *Climb Up the World*. My goal is to raise _____. If you could help with a donation of _____, I would really appreciate it. Your contribution will help make a difference in the fight against pediatric AIDS and of course, it is tax deductible.

Thank you for being part of my venture and for giving hope to children!

On behalf of the children,
